

I am an over the road truck driver and i was very pleased when XM radio offered me the local wheather and traffic of various cities. It is very easy to just use the remote and switch to their reports when i am about to enter the cities themselves without losing my concentration on the traffic around me. Other wise I would be like before switching from station to station searching for traffic reports so I can know the easiest way to manuver around the traffic problems occuring around me. Xm also provides me with continuous music, stories, news and wheather as I drive the endless miles on theese highways that cannot be gotten on local channels. I benifit vastly from XM'S traffic and wheather channels, and as I am paying for theese services provided by XM Radio, and I don't think it should be up to the National Association of Broadcasters to dicate what I can and WHAT I CAN'T LISTEN TO SINCE I AM PAYING FOR THE SERVICE. I am respectfully urging the FCC to reject NAB'S PETITION 04-160. THANK YOU....
